

Online Fax

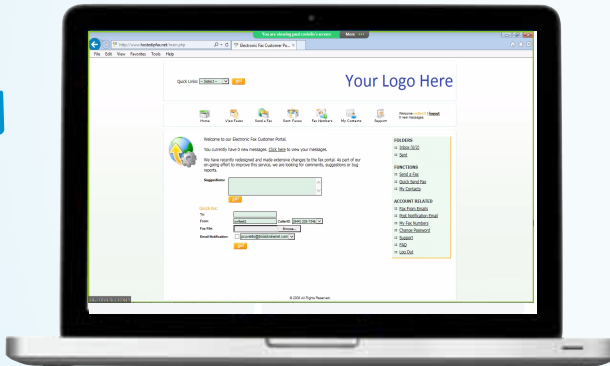

FAX ANYWHERE, FROM ANY DEVICE WITH ONLINE FAX

Online Fax is a revolutionary online faxing service that allows your employees to send and receive faxes directly from their email and through a secure online portal, without the need for hardware, software or phone lines. Faxes can be sent and received anywhere, from any device and are stored securely in the cloud for future use.

Get faxes delivered anywhere you have access to your email!

Delete faxes from your phone, but store them in the easy to use portal

The most efficient and easy-to-use faxing service available!

Online Fax is an affordable faxing solution that will reduce your current costs. It streamlines your entire document management process while enabling your mobile and remote employees to be more productive.

Plus, faxing is so much easier than with a fax machine. Simply attach a document to an email and click send for fax distribution. Receive your faxes via email and access them from any Internet-enabled-email client, web browser or smartphone, it's that simple.
